Profile

Dedicated and proficient MERN Stack Developer qualified by strong background in React.js, Node.js, MongoDB along with solving the challenges. As a web developer, I am interested in developing groundbreaking ideas such as Playways - a website for sports lovers, Café-Mania A café management and e commerce web. Knowledgeable in HTML/CSS, bootstrap and API integration, I want to be a master in full-stack development.

Experience

June 2023 – March 2024

Mern Stack Developer (Internship) - Computer Education & Cybernetics

As the internship was oriented on the exploring the MERN stack, I got the opportunity to develop and deploy full stack web applications which I had not worked on before. Furthermore, working with MongoDB, Express.js, React.js and Node.js was also a new experience for me as it was required for developing these applications. My responsibilities included work with establishing RESTful services, implementing JSON Web Token based security mechanisms and building graphical interfaces using React. Furthermore, cooperation with the team members as far as debugging, testing and code optimization was concerned was also a necessity. I was facing real life scenarios where I had to find solutions and it really made me appreciate how modern web applications are built.

June 2024 – July 2024

Microsoft Learn Web Development (Internship) – Aadi Foundation

As a Microsoft Learn intern in web Development, I was able to put into practice the construction of modern web applications through the use of HTML, CSS, JavaScript and Azure services. I created responsive layouts and standardized the optimization of web codes while also looking into web deployment via cloud services, improving my front end and cloud computing skills.

Education

Present

R.B. Institute of Management Studies
Masters of Computer Application

May 2024

President Institute of Computer Application
Bachelors of Computer Application

Key skills and characteristics

· Mongodb	· HTML	· Git - GitHub
· Express.js	· CSS	· Problem Solving
· React.js	· JavaScript	· RESTful API
· Node.js	· Bootstrap	

Languages

English, Hindi, Gujarati
